

management/engineer/technical

System Administrator and Engineer, Secaucus, NJ Production Resource Group, LLC

The world's leading supplier of entertainment and event technology, PRG currently operates from 36 locations in North America, South America, Europe, Asia and Africa. Our facilities include over 1.5 million square feet of warehouse space that house our state-of-the-art inventory of audio, video, lighting, rigging, scenery and automation equipment.

PRG serves a range of markets, including concert touring, corporate events, trade shows, special events, theater, television and film. Our company is uniquely qualified to provide the resources and services customers need at any and all sites, efficiently and cost effectively. Our staff offers years of experience serving the specialized needs of each of our markets. For a given market, we can provide a single discipline, such as lighting, audio or video, or we can bundle disciplines for an integrated solution that meets the needs of the entire project.
