Drafter Theatre Projects' Connecticut

We're looking for a full-time drafter to join Theatre Projects' Connecticut team. This new position is available as soon as we find the right person.

Working alongside theatrical system designers, most of your time would be dedicated to drafting with CADD software. Other regular duties include drawing management, document retrieval from web-based servers, and digital image library maintenance.

We're looking for someone with:

A bachelor's degree in theatre or related field

Significant expertise in AutoCAD2010 or most recent version

Experience in theatre, architecture, or construction

Experience handling drawings and theatrical equipment

The ability to work in 3D drawing programs and animation

The salary for this job depends on your level of experience, and we offer excellent benefits.

We're an exciting company - are you dedicated, hard-working, and fun? Let's see if we're a good fit! Email your PDF cover letter and resume to jobs@theatreprojects.com and put "Drafter search" in your subject line. And help us reduce our paper waste – please don't send a hard copy.

For a more complete list of job responsibilities and required skills, see us at our website: theatreprojects.com.
